SEARS SENTRY SERIES ON ROAD TRUCK SEAT

SEARS SEATING

Sears' Sentry seats are designed to outperform the competition in comfort, quality and reliability. Equipped with ToggleLink design air suspension and a back frame support structure contoured to fit the natural shape of the spine, the Sentry seat offers real value for the customer. Sears is proud to provide the perfect seating solution for a wide variety of vehicles in the agricultural, construction, material handling and on-highway truck industries. With the latest testing equipment in our state-of-the-art ComfortLab we are proud to produce ergonomic, correctly contoured, healthy seats for a wide range of applications.
